DESCRIPTION OF THE INTERNSHIP

- Description & nature of the job Corwhite solutions indulged in many services one of them was filing the income tax return, company has its own app which is present in the app store and play store through which anyone can download and fill the details and make payment directly to the company then the order is raised and an expert is assigned and on behalf of the client he/she fills his/ her ITR.
- Specific responsibilities of the job Filing an ITR is always a very responsible task as there are a number of sections that a tax expert should know and the deductions applicable to it. There can be a query raised by the government if the ITR filled was wrong and consequences should be faced by the client.

OVERVIEW OF INTERNSHIP EXPERIENCE

- Skills learned during the Internship during the internship I learned a few skills like communication as we have to connect to the client and ask for the details of the client about filing their ITR and ask for the login credentials which everyone is not comfortable sharing, this was a hard task which we have to convince the client.
- Experience during the Internship The experience during the internship was great as all the employees and colleagues are very friendly and helpful and helps us at every point of time when needed. The pressure was a lot at the last date of filing ITR but we manage to get the desired output within a given time and in a friendly environment.
