INTRODUCTION

Fortuner packaging aims to invest in technology to support the industry and be involved in printing and packaging and provide value-added packaging solutions Perry and post press to their customers.

Fortuner packaging is committed to perfection and excellence in all activities and plays for continual improvement in QMS for attaining the highest level of customer satisfaction and is committed to fulfilling all applicable legal requirements. “

SKILLS AND ATTITUDE

I completed my training under the guidance of Mr. Sunil Kumar head of AGM operations. I visited all the departments as Account purchase quality control planning in marketing.

I interacted with all the departments and heads and managers.

The platform impacted my attitude and research skills.

3. Safeguard the health of all the employees, contract labor, and visitors company working the factory premises all the time.
4. Suitable and sufficient firefighting equipments are in place.
5. Awareness to all the employees and society about the importance of meeting the health and safety requirements.

CONCLUSION

Fortuner packaging is a world-class organization by continuously invests in current and future technology in support of printing and packaging.

As it was my first time and I was just a second-year college student it was more of a training and observing experience for me than doing a job. An internship is the best way to find out your abilities and weakness. This helps me to define what skills and knowledge I have to improve in the coming times. It was a great learning experience with a team working on a particular real-time project and at the same time, it was even challenging as well as joyful to work in a new atmosphere and with new people.
